1 Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier
Trade Name: US Standard Fuel Tank Sealer

1.2 Relevant identified uses of the substance or mixture and uses advised against
No further relevant information available.

Application of the substance / the preparation: Isocyanate resin

1.3 Details of the supplier of the Safety Data Sheet
Manufacturer/Supplier:
Absolute Coatings Inc.
38 Portman Road
New Rochelle, NY 10801
Phone: 1-800-221-8010

1.4 Emergency telephone number:
ChemTel Inc.
(800)255-3924, +1 (813)248-0585

2 Hazards identification

2.1 Classification of the substance or mixture
Classification according to Regulation (EC) No 1272/2008
The following classifications are applicable only to the general GHS regulations and not the specific CLP regulation: H227.

The following Hazard Statements are applicable only to the EU regulations and not the US GHS regulation: H412.

H227: Combustible Liquid. (General GHS and USA only)

GHS08 health hazard
Resp. Sens. 1; H334: May cause allergy or asthma symptoms or breathing difficulties if inhaled.
Muta. 1B; H340: May cause genetic defects.
Carc. 1B; H350: May cause cancer.

STOT RE 2; H373: May cause damage to organs through prolonged or repeated exposure.

GHS07
Acute Tox. 4; H332: Harmful if inhaled.
Skin Irrit. 2; H315: Causes skin irritation.
Eye Irrit. 2; H319: Causes serious eye irritation.

Skin Sens. 1; H317: May cause an allergic skin reaction.

STOT SE 3; H335: May cause respiratory irritation.

Aquatic Chronic 3; H412: Harmful to aquatic life with long lasting effects.

Classification according to Directive 67/548/EEC or Directive 1999/45/EC

Xn; Harmful
R40: Limited evidence of a carcinogenic effect.

Xn; Sensitising
R42/43: May cause sensitisation by inhalation and skin contact.

Xi; Irritant
R36/37/38: Irritating to eyes, respiratory system and skin.

R52/53: Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
Safety Data Sheet
according to 1907/2006/EC (REACH),
1272/2008/EC (CLP), and GHS

Trade Name: US Standard Fuel Tank Sealer

Information concerning particular hazards for human and environment:
The product has to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version.

Classification system:
The classification is according to the latest editions of the EU-lists, and extended by company and literature data.
The classification is in accordance with the latest editions of international substances lists, and is supplemented by information from technical literature and by information provided by the company.

2.2 Label elements
Labelling according to Regulation (EC) No 1272/2008
The product is classified and labelled according to the CLP regulation.

Hazard pictograms

GHS07 GHS08
Signal word: Danger

Hazard-determining components of labelling:
4,4’-methylene diphenyl diisocyanate
Solvent naphtha (petroleum), light arom.
Polymethylene Diisocyanate Polymer
Methylene diphenyl Diisocyanate

Hazard statements
The following Hazard Statements are applicable only to the EU regulations and not the US GHS regulation: H412.
The following Hazard Statements are applicable only to the general GHS regulations and not the specific CLP regulation: H227.
H227: Combustible Liquid. (General GHS and USA only)
H332: Harmful if inhaled.
H315: Causes skin irritation.
H319: Causes serious eye irritation.
H334: May cause allergy or asthma symptoms or breathing difficulties if inhaled.
H317: May cause an allergic skin reaction.
H340: May cause genetic defects.
H350: May cause cancer.
H335: May cause respiratory irritation.
H373: May cause damage to organs through prolonged or repeated exposure.
H412: Harmful to aquatic life with long lasting effects.

Precautionary statements
P285: In case of inadequate ventilation wear respiratory protection.
P264: Wash thoroughly after handling.
P260: Do not breathe mist/vapours/spray.
P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P342+P311: If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician.
P314: Get medical advice/attention if you feel unwell.
P302+P352: IF ON SKIN: Wash with plenty of soap and water.

Additional information:
Contains isocyanates. May produce an allergic reaction.
Restricted to professional users.
Trade Name: US Standard Fuel Tank Sealer

Hazard description:
WHMIS-symbols:
D2A - Very toxic material causing other toxic effects.

NFPA ratings (scale 0 - 4)
Health = 2
Fire = 1
Reactivity = 0

HMIS-ratings (scale 0 - 4)
HEALTH *2 Health = *2
FIRE 1 Fire = 1
REACTIVITY 0 Reactivity = 0
* - Indicates a long term health hazard from repeated or prolonged exposures.

HMIS Long Term Health Hazard Substances
101-68-8 4,4'-methylene diphenyl diisocyanate
26447-40-5 Methylene diphenyl diisocyanate
9016-87-9 Polymethylene polyphenylene isocyanate

2.3 Other hazards
Ingestion: Poison!! Ingestion may be fatal or cause blindness. Cannot be made nonpoisonous.

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

3 Composition/information on ingredients

3.2 Mixtures
Description: Mixture of substances listed below with nonhazardous additions.

Dangerous components:

Additional information: For the wording of the listed risk phrases refer to section 16.

4 First aid measures

4.1 Description of first aid measures

General information:
Immediately remove any clothing soiled by the product.
Remove breathing equipment only after contaminated clothing have been completely removed.
In case of irregular breathing or respiratory arrest provide artificial respiration.
Take affected persons out into the fresh air.

After inhalation:
Supply fresh air.
In case of irregular breathing or respiratory arrest provide artificial respiration.
Seek immediate medical advice.

After skin contact:
Immediately wash with water and soap and rinse thoroughly.
If skin irritation continues, consult a doctor.

After eye contact:
Immediately remove contact lenses if possible.
Rinse opened eye for several minutes under running water. Then consult a doctor.

After swallowing:
Rinse out mouth and then drink plenty of water.
Do not induce vomiting; call for medical help immediately.
A person vomiting while laying on their back should be turned onto their side.

4.2 Most important symptoms and effects, both acute and delayed

Asthma attacks
Nausea
Cramp
Dizziness
Headache
Profuse sweating
Disorientation
Cyanosis
Breathing difficulty
Allergic reactions

Hazards:
Danger of pneumonia.
Danger of convulsion.
Danger of disturbed cardiac rhythm.
Danger of impaired breathing.

4.3 Indication of any immediate medical attention and special treatment needed

If swallowed, gastric irrigation with added, activated carbon.
Contains isocyanates.
Trade Name: US Standard Fuel Tank Sealer

In cases of irritation to the lungs, initial treatment with cortical steroid inhalants.
If necessary oxygen respiration treatment.
Later observation for pneumonia and pulmonary oedema.
Medical supervision for at least 48 hours.
If blue colouring appears (lips, ear-lobes, finger-nails), give oxygen treatment as quickly as possible.
Severe allergic skin reaction, bronchial spasms and anaphylactic shock are possible.
Treat skin and mucous membrane with antihistamine and corticoid preparations.

5 Firefighting measures

5.1 Extinguishing media
Suitable extinguishing agents:
- Alcohol resistant foam
- Fire-extinguishing powder
- Carbon dioxide
- Gaseous extinguishing agents
- Water haze or fog

For safety reasons unsuitable extinguishing agents: Water with full jet

5.2 Special hazards arising from the substance or mixture
During heating or in case of fire poisonous gases are produced.

5.3 Advice for firefighters
Protective equipment:
- Wear self-contained respiratory protective device.
- Wear fully protective suit.

Additional information:
- Eliminate all ignition sources if safe to do so.
- Cool endangered receptacles with water fog or haze.

6 Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures
Use respiratory protective device against the effects of fumes/dust/aerosol.
- Wear protective equipment. Keep unprotected persons away.
- Ensure adequate ventilation
- Isolate area and prevent access.
- Keep away from ignition sources.

6.2 Environmental precautions:
Inform respective authorities in case of seepage into water course or sewage system.
- Do not allow to enter sewers/ surface or ground water.

6.3 Methods and material for containment and cleaning up:
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
Additional Spill Procedures/Neutralization: Neutralization solutions:
- (1) Colorimetric Laboratories Inc. (CLI) decontamination solution.
- (2) A mixture of 75% water, 20% non-ionic surfactant (e.g. Plurafac SL-62, Tergitol TMN-10) and 5% n-propanol.
- (3) A mixture of 80% water, 20% non-ionic surfactant (e.g. Plurafac SL-62, Tergitol TMN-10).
- (4) A mixture of 90% water, 3-8% ammonium hydroxide or concentrated ammonia, and 2% liquid detergent.
- Dispose contaminated material as waste according to item 13.
- Do not flush with water or aqueous cleansing agents

6.4 Reference to other sections
See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.
7 Handling and storage

7.1 Precautions for safe handling
Take note of emission threshold.
Ensure good ventilation/exhaustion at the workplace.
Prevent formation of aerosols.
Open and handle receptacle with care.
Information about fire - and explosion protection:
Keep respiratory protective device available.
Protect from heat.
Keep ignition sources away - Do not smoke.

7.2 Conditions for safe storage, including any incompatibilities
Storage:
Requirements to be met by storerooms and receptacles:
Provide ventilation for receptacles.
Store in a cool location.
Avoid storage near extreme heat, ignition sources or open flame.
Information about storage in one common storage facility:
Store away from foodstuffs.
Do not store together with acids.
Store away from oxidizing agents.
Do not store together with alcalis (caustic solutions).
Further information about storage conditions:
Store in cool, dry conditions in well sealed receptacles.
Store receptacle in a well ventilated area.
Keep container tightly sealed.

7.3 Specific end use(s): No further relevant information available.

8 Exposure controls/personal protection

Additional information about design of technical facilities: No further data; see item 7.

8.1 Control parameters

DNELs: No further relevant information available.
PNECs: No further relevant information available.
Additional information: The lists valid during the making were used as basis.

8.2 Exposure controls
Personal protective equipment:
General protective and hygienic measures:
**Safety Data Sheet**
according to 1907/2006/EC (REACH),
1272/2008/EC (CLP), and GHS

**Trade Name:** US Standard Fuel Tank Sealer

| Personal protective equipment must be selected to prevent inhalation of vapors and contact with skin and eyes. At a bare minimum, safety glasses, gloves, apron, and combination particle/vapor respirator should be worn. In some cases, supplied air, full body suits and boots will be needed. |  |
| The usual precautionary measures are to be adhered to when handling chemicals. |  |
| Keep away from foodstuffs, beverages and feed. |  |
| Immediately remove all soiled and contaminated clothing. |  |
| Wash hands before breaks and at the end of work. |  |
| Do not inhale gases / fumes / aerosols. |  |
| Avoid contact with the eyes and skin. |  |

**Respiratory protection:**
Combined Organic Vapor and Particulate Respirator are recommended for use during all processing activities.

**Protection of hands:**
Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

**Material of gloves**
The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material cannot be calculated in advance and has therefore to be checked prior to the application.

**Penetration time of glove material**
The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

**For the permanent contact gloves made of the following materials are suitable:**
Nitrile rubber, NBR
Butyl rubber, BR
Neoprene gloves

**Eye protection:**
Contact lenses should not be worn.

Safety glasses

**Body protection:**
Full head, face and neck protection

Boots

Apron

Impervious protective clothing

**Limitation and supervision of exposure into the environment**
No further relevant information available.

**Risk management measures**
See Section 7 for additional information. No further relevant information available.
Trade Name: US Standard Fuel Tank Sealer

10 Stability and reactivity

10.1 Reactivity

10.2 Chemical stability:

Thermal decomposition / conditions to be avoided:
No decomposition if used and stored according to specifications

10.3 Possibility of hazardous reactions

Reacts with alcohols, amines, aqueous acids and alkalis.
Reacts with oxidizing agents.
Toxic fumes may be released if heated above the decomposition point.
Trade Name: US Standard Fuel Tank Sealer

10.4 Conditions to avoid:
Keep away from heat and direct sunlight.
Keep ignition sources away - Do not smoke.

10.5 Incompatible materials: No further relevant information available.

10.6 Hazardous decomposition products:
Poisonous gases/vapours
Isocyanate
Nitrogen oxides
Carbon monoxide and carbon dioxide
Hydrogen cyanide (prussic acid)

11 Toxicological information

11.1 Information on toxicological effects

Acute toxicity:

<table>
<thead>
<tr>
<th>LD/LC50 values relevant for classification:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Oral 101-68-8 4,4'-methylene diphenyl disocyanate</td>
</tr>
<tr>
<td>Oral 64742-95-6 Solvent naphtha (petroleum), light arom.</td>
</tr>
<tr>
<td>Dermal</td>
</tr>
<tr>
<td>Inhalative</td>
</tr>
</tbody>
</table>

Primary irritant effect:
On the skin: Irritant to skin and mucous membranes.
On the eye: Irritating effect.

Sensitization:
Sensitization possible through inhalation.
Sensitization possible through skin contact.

Subacute to chronic toxicity:
Inhalation of concentrated vapours as well as oral intake will lead to anaesthesia-like conditions and headache, dizziness, etc.

Additional toxicological information:
Toxic and/or corrosive effects may be delayed up to 24 hours.
The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version.

Harmful
Irritant
Danger through skin adsorption.

Sensitisation:
Sensitization possible by skin contact.
Sensitization possible by inhalation and/or dermal contact.

Repeated dose toxicity:
May cause damage to organs through prolonged or repeated exposure.
Repeated exposures may result in skin and/or respiratory sensitivity.

CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction):
Muta. 1B, Carc. 1B

12 Ecological information

12.1 Toxicity

Aquatic toxicity: The product contains materials that are harmful to the environment.

12.2 Persistence and degradability: Not easily biodegradable

12.3 Bioaccumulative potential: May be accumulated in organism
### 12.4 Mobility in soil: No further relevant information available.

#### Ecotoxical effects:

**Remark:**
- Due to mechanical actions of the product (e.g. agglutinations) damages may occur.
- The product is oxygen-consuming. The declared action may be partly caused by lack of oxygen.
- Harmful to fish

#### Additional ecological information:

**General notes:**
- This statement was deduced from the properties of the single components.
- Due to available data on eliminability/decomposition and bioaccumulation potential prolonged term damage of the environment cannot be excluded.
- Water hazard class 2 (German Regulation) (Self-assessment): hazardous for water
- Do not allow product to reach ground water, water course or sewage system.
- Danger to drinking water if even small quantities leak into the ground.
- Harmful to aquatic organisms

#### 12.5 Results of PBT and vPvB assessment

**PBT:** Not applicable.
**vPvB:** Not applicable.

#### 12.6 Other adverse effects: No further relevant information available.

### 13 Disposal considerations

#### 13.1 Waste treatment methods

**Recommendation:**
- Must not be disposed together with household garbage. Do not allow product to reach sewage system.
- After prior treatment product has to be disposed of in an incinerator for hazardous waste adhering to the regulations pertaining to the disposal of particularly hazardous waste.

**Uncleaned packaging:**

**Recommendation:** Disposal must be made according to official regulations.

### 14 Transport information

#### 14.1 UN-Number

**DOT,** **ADR,** **IMDG,** **IATA:** N/A

#### 14.2 UN proper shipping name

**DOT,** **ADR,** **IMDG,** **IATA:** N/A

#### 14.3 Transport hazard class(es)

**DOT,** **ADR,** **IMDG,** **IATA:**

**Class:** N/A

#### 14.4 Packing group

**DOT,** **ADR,** **IMDG,** **IATA:** N/A

#### 14.5 Environmental hazards:

**Marine pollutant:** No

#### 14.6 Special precautions for user:

**Not Applicable**

#### 14.7 Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code:

**Not applicable.**

**UN "Model Regulation":** -

### 15.2 Chemical safety assessment:

A Chemical Safety Assessment has not been carried out.
16 Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

H304: May be fatal if swallowed and enters airways.
H315: Causes skin irritation.
H317: May cause an allergic skin reaction.
H319: Causes serious eye irritation.
H332: Harmful if inhaled.
H334: May cause allergy or asthma symptoms or breathing difficulties if inhaled.
H335: May cause respiratory irritation.
H340: May cause genetic defects.
H350: May cause cancer.
H373: May cause damage to organs through prolonged or repeated exposure.
H412: Harmful to aquatic life with long lasting effects.

R20: Harmful by inhalation.
R36/37/38: Irritating to eyes, respiratory system and skin.
R36/38: Irritating to eyes and skin.
